SUMMARY

I would like to be a part of an organization where I could use and enhance my knowledge and talent for the development of both the organization and myself. I will always try to use my skills with honesty and devotion towards my job.

PROJECT

MACHINE LEARNING PROJECT

SASTRA UNIVERSITY (ON-CAMPUS)

- I have completed my project on A Loan Risk Prediction Model Using Convolutional Neural Networks and Stacking Fusion during my academic courses at Sastra University.

EDUCATION

2023 – Pursuing	**SASTRA UNIVERSITY** Master of Science in Data Science	**GPA 7.7**
2019 – 2021	**KALAIMAHAL COLLEGE OF ARTS AND SCIENCE** Bachelor of Science in Computer Application	**GPA 8.7**
2018 – 2019	**SRINIVASA HR.SEC.SCHOOL** Class 12th	**60.5**
2016 – 2017	**KALAIMAHAL MATRIC HR.SEC.SCHOOL** Class 10th	**80.2**

CERTIFICATES

- **GENERATIVE AI WITH LARGE LANGUAGE MODELS**
  Coursera

- **INTRODUCTION TO DATA SCIENCE**
  Cisco networking academy

SKILLS

- Python (eg. scikit-learn, numpy, pandas, matplotlib, streamlit)
- R
- SQL
- Html & Css
- Machine learning
- Data Analysis
- Basic Knowledge on C and C++
- Vs Code
- GitHub
- MS Word, Excel, PowerPoint

- Good communication skill
- Able to work in a team
- Problem solving skill
- Creativity skills
